

COMMIT 34

Documentation Improvement

Member 2 • Prometheus • DevOps Monitoring Phase

Documentation Improvement

Review all Prometheus documentation before the final commit.

Checklist

- Correct spelling
- Correct Markdown formatting
- Correct code blocks
- Correct Prometheus terminology
- Remove duplicate information
- Verify filenames
- Verify folder structure
- Check screenshots
- Check query examples
- Check configuration examples

Goal

Make the Prometheus module clear, consistent and ready for integration into the team's main DevOps Monitoring repository.
